

Unimark ET6500 Multi-Purpose Printer

Innovative new bag tag and ATB
Printer
RFID Compatible

Multi-level dot history control for crisp barcodes,
text and graphics at speeds up to 8 ips

Heavy Duty Compact Design

Multi-purpose Printer: Baggage Tags, Boarding Passes and Cargo Labels

RFID Upgradable

Easy to Operate and Maintain

Auto-loading and Top-of-Form Sensing

Lowest Total Cost of Ownership in its Class

The Express Tag 6500 is the industry's first low cost, industrial, high quality bag tag and ATB printer in one.

The state-of-the-art design of the ET6500 is founded on a high speed microprocessor and multi-level dot history control of the print head to produce crisp 1D and 2D barcodes, text and graphics.

Standard 203 resolution and speeds up to 8 inches per second, make quick work of your printing requirements.

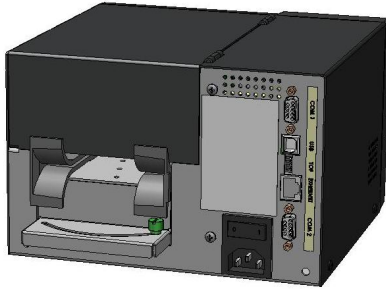

The self centering paper path provides maximum flexibility when printing baggage tags, cargo labels, or ATB coupons. Self aligning print head makes replacement and maintenance simple.

The ET6500 is easy to use with the convenient front panel display and eight keys to navigate the configuration menu and perform diagnostics.

Communications Interface

- RS-232 serial interface with output port available for connecting additional printer
- USB Interface
- Optional Ethernet

Electronics

- 32 Bit microprocessor
- NV-Ram supporting PECTAB, logo, font and template downloads
- 1MB program flash , 1MB AEA/data flash (expandable to 6MB), 2MB RAM (expandable to 4MB)
- 2x20 character backlit LCD display and eight key control panel for system access
- Four status LEDs

Options

- Cutter
- Gen 2 RFID Module (upgradeable)
- External Catcher
- Roll stock arm
- Customized mounting designs

Physical

Dimensions Depth Height Width

9.2" (234 mm) 5.8" (147 mm) 8.6" (218 mm)

Overall Depth with Optional Roll Arm 16.0" (406 mm)

Weight

9.85 lbs (4.5 Kilos)

Environmental

Conditions

- **Relative Humidity:** 10-95% non-condensing
- **Temperature** 40° to 104° F(4° to 40°C)
- **Power supply** Universal input
85-270 VAC +/- 10%, 47-63 Hz

Compliance

- FCC Part 15, Class A
- CUL/UL
- CE
- RoHS
